SAFETY FIRST

Patient and staff safety

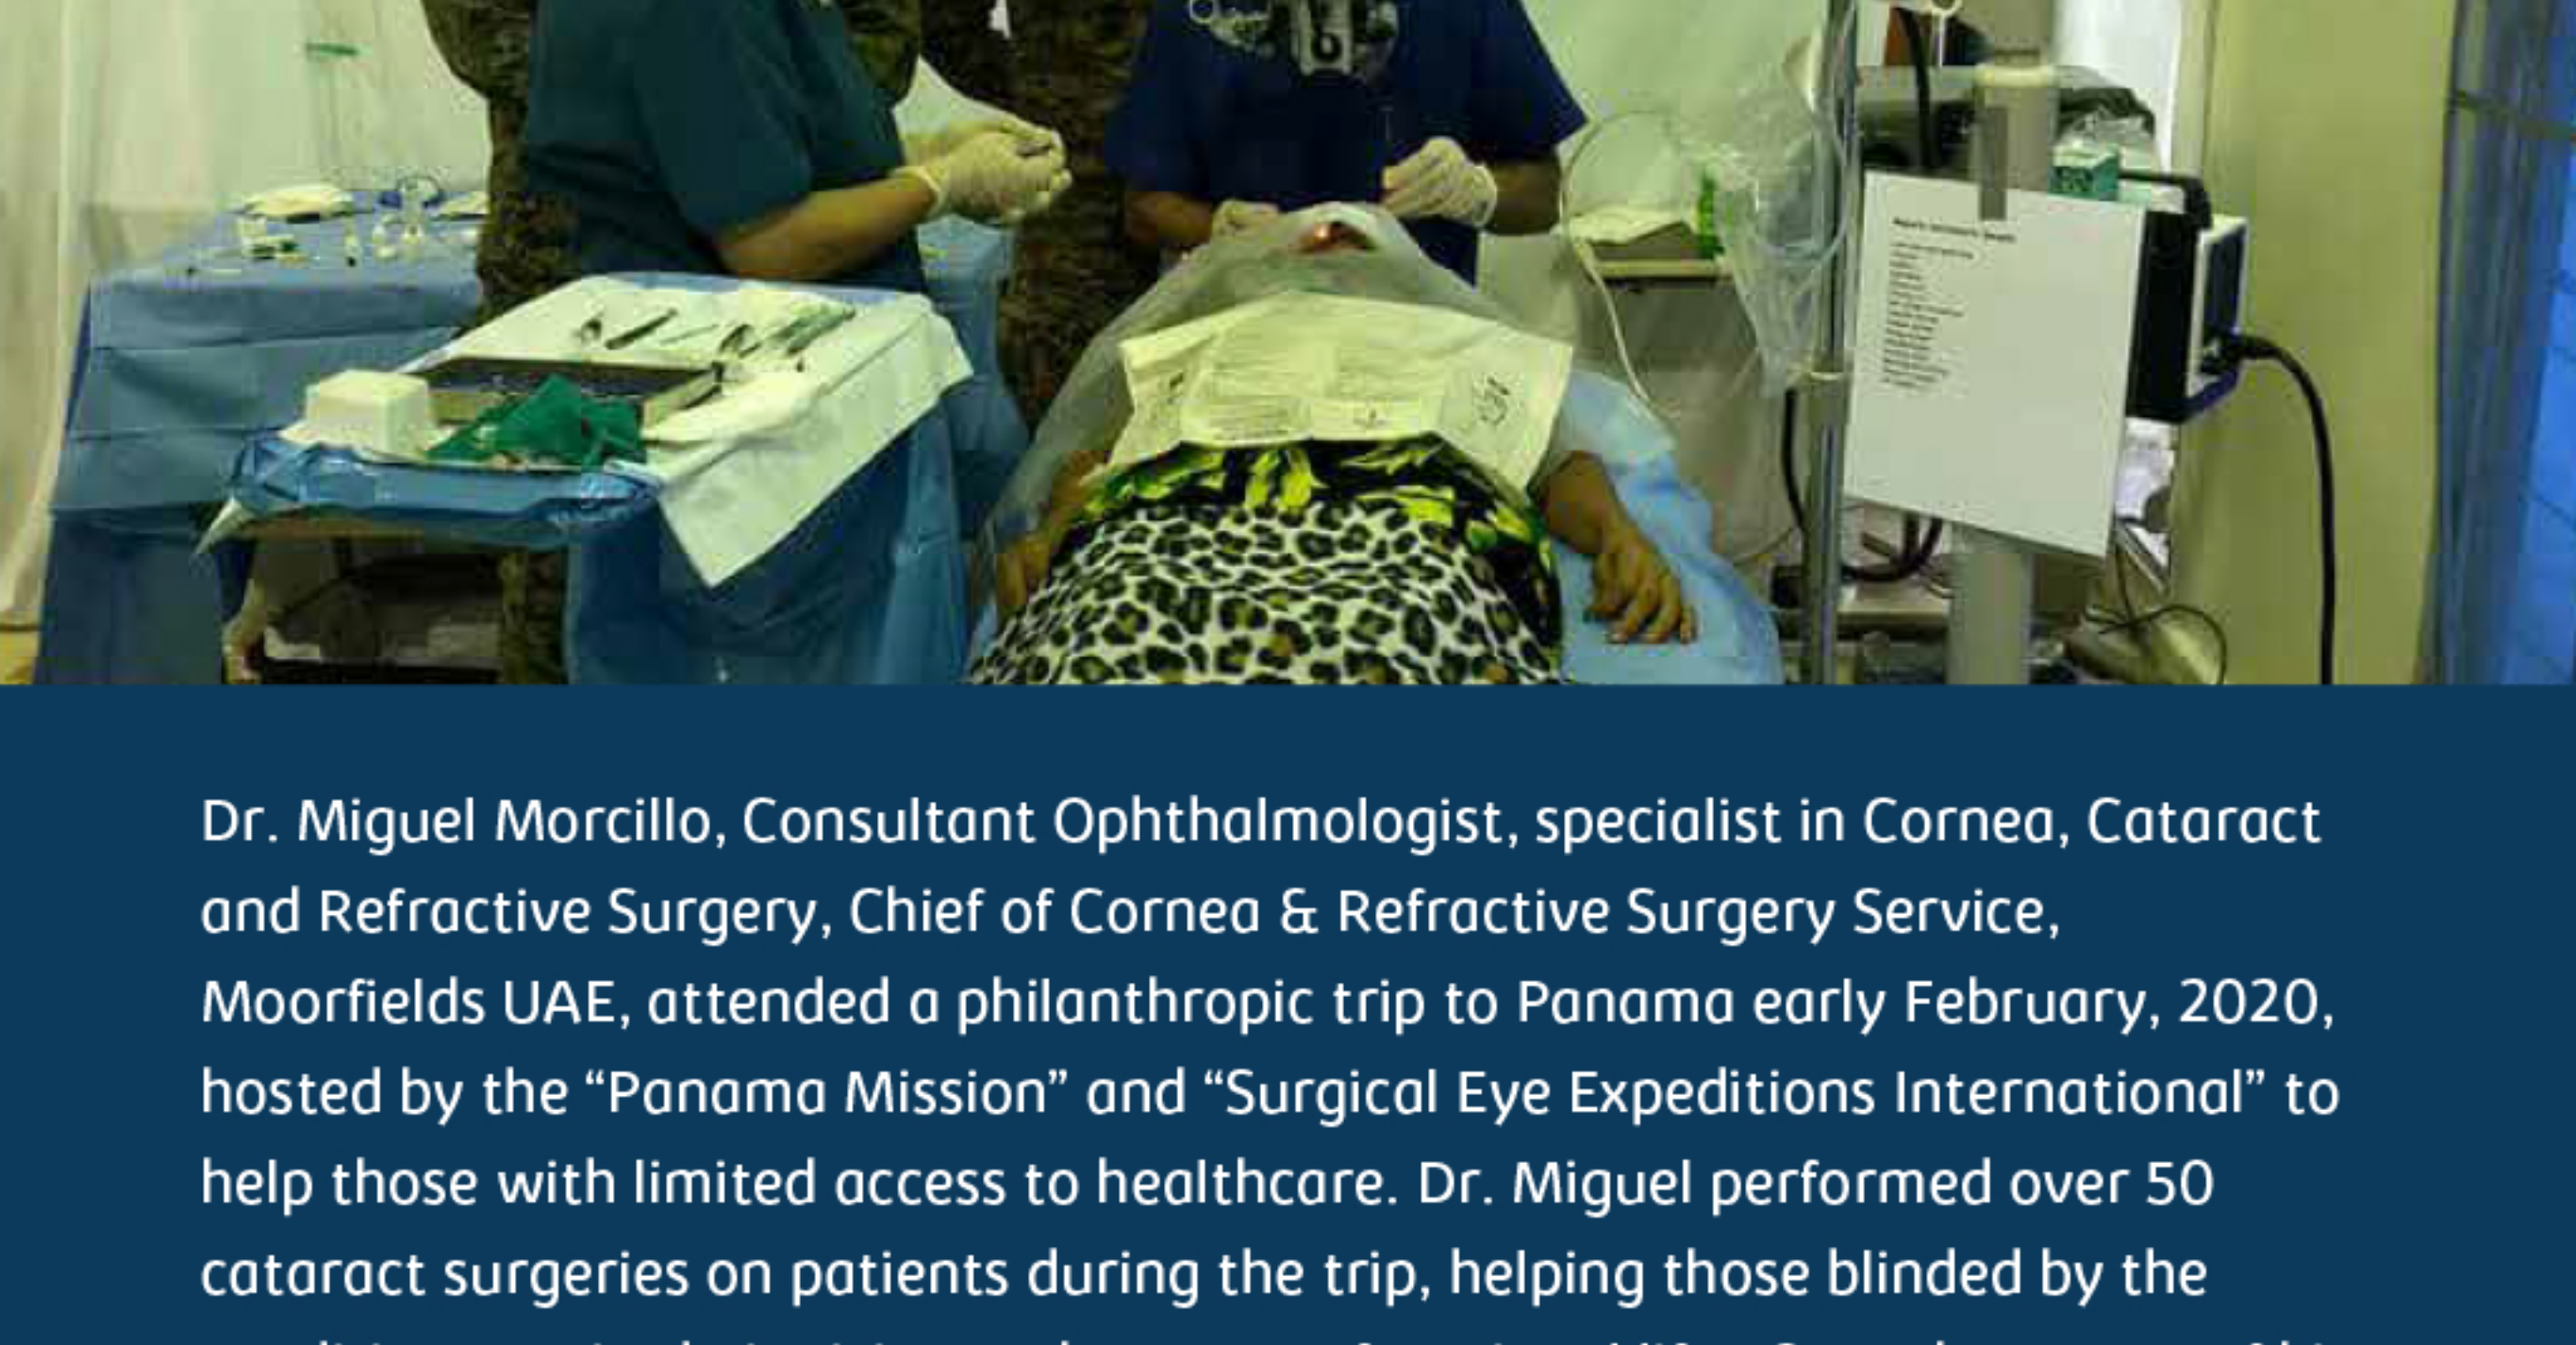

In order to ensure the safety and wellbeing of our patients and staff, we have put in place measures as per the preventative processes set by the health authorities. This includes additional and more stringent infection control measures throughout our hospital and all checkpoints, deep cleaning of our premises, pre-screening forms at registration desks, patient distancing (both from an appointment and during visit with us standpoint) and designated isolation areas for consultations in the event that any patient falls within the criteria set by the health authorities. Click [here](#) to view a video on the new protective measures we are taking. Thank you for your understanding and for your continued trust in Moorfields as your eye care provider.

Patient testimonial – Mr. Safwan

Mr. Safwan underwent a cataract & minimally invasive glaucoma surgery (iStent) with Dr. Mohammed Sohaib Mustafa, consultant ophthalmic surgeon, specialist in glaucoma & cataract surgery at Moorfields Eye Hospital Dubai.

The glaucoma procedure was carried out to help reduce the increased pressure in his left eye caused by the condition, which if left untreated can cause permanent damage and further visual loss. Cataract surgery helped restore sight which was affected due to the clouding of the lens.
